REVISE DUTIES ON **WOOLEN INDUSTRY**

Virtual Abandonment of Sliding Scale on Sugar Princ pal Development

pal Development

It WASHINGTON And 10—1

TO TO TRIES IN A CLASSIC STATES And VICTAIN AND 10—1

TO TO TRIES IN A CLASSIC STATES AND VICTAIN AND THE MANDEST AND VICTAIN AND THE WORLD THE MAND THE MANDEST AND THE MANDEST AND

In suppose the schedule unit part lies day.

The woolen industry received an even break from the Bispoldiean members of the committee. The braic rate which the house rated to discents a pound was reduced to discents a pound—the asme rated to discents a pound—the asme rate as carried in their efforts to being tracted law. It will apply to wools, not specially provided for, and to the hair of Angora and cashmere goats, alpean and similar wools. The rate on soried and matched wook of this carriety was reduced from 30 to 3d cents a pound while the same wools on the skin were taxel at 40 cents a pound while the same wools on the skin were taxel at 40 cents a pound while the same wools on the skin were taxel at 40 cents a pound while the same wools on the skin were taxel at 40 cents a pound as in existing law, instead of the 33 cent rate approved by the house All these rates represented a reverse for the woolen industry.

Save and Be Happy

The habit of saving may not insure happiness, but the lack of saving may defeat it. Save and be happy. therefore, is a reasonable motto, but it is quite different from striving for richness in order to be happy. The reward of competence is the sense of security it gives and the contentment that security, in turn, affords.
